

SHANKAR MANJREKAR

FULL STACK DEVELOPER

Mumbai | shankarmanjarekar123@gmail.com | +91-9082214852

SUMMARY

Full Stack Developer with 2 years of experience in building dynamic, responsive, and high-performance web applications using the Inertia framework and React.js. Proficient in developing scalable, maintainable front-end interfaces with React.js, while leveraging Laravel for robust backend functionality and seamless API integration. Skilled in implementing modern UI/UX using Tailwind CSS and Bootstrap, with a strong focus on performance optimization and clean, user-centered design.

Experienced in developing single-page applications (SPAs) using Inertia.js, bridging the gap between server-side frameworks and client-side interactivity. A detail-oriented and collaborative team player committed to writing clean, efficient code and continuously improving development processes. Adept at delivering reliable, full-stack solutions that align with business objectives and enhance user experiences.

TECHNICAL SKILLS

- | | | | |
|---------------|----------------|--------------|--------------|
| • HTML | • CSS | • Javascript | • Wordpress |
| • Bootstrap | • Tailwind CSS | • React JS | • Typescript |
| • Inertia | • Laravel | • PHP | • GIT |
| • Postman API | • My SQL | • Figma | • Redux |

PROFESSIONAL EXPERIENCE

Web Developer

Codium Techlabs Private Limited

May 2023 - Present

- Designed and implemented full-stack web applications using Laravel (backend) and React.js with Inertia.js framework (frontend), reducing development overhead while delivering modern SPA-like interactivity.
- Contributed to the successful deployment of projects including ERP systems, client portals, portfolio websites, and SaaS applications tailored for covenant and fund accounting workflows.
- Spearheaded front-end logic and API integration for client portal projects, leveraging Axios and React Query for efficient state management, data fetching, and UI responsiveness.
- Employed GitHub for version control, managing repositories, reviewing code via pull requests, and enforcing clean code practices through structured branching strategies.
- Interfaced with clients to gather project requirements, deliver progress updates, and ensure that final outputs aligned with their strategic goals and technical expectations.
- Maintained clear and reusable codebases, implemented secure authentication systems, and upheld best practices in code reviews, testing, and agile development methodologies.

EDUCATION

BSC Data Science

June 2019 - April 2022

Thakur College of Science and Commerce

- Major in Data Analyst, Machine Learning and Artificial Intelligence.

12th Science

June 2017 - March 2019

Patkar Vardhe College

- Major in Physics, Maths, Biology and Chemistry
